

Wall Blade High Speed Hand Dryer

- Energy Saving Option
- Small Wall Footprint
- Contemporary Design
- Rust Free ABS Cover
- Low Weight
- Automatic Operation
- Power On Indicator Lights

The Wall Blade High Speed Low Noise Hand Dryer fitted with a filter to combat germs and bacteria reaching your hands. This easy to install machine is compact and powerful whilst creating a warm airflow that dries hands in 10 seconds. The Wall Blade High Speed Hand Dryer is an ergonomically designed automatic machine giving low running costs and low maintenance for all commercial areas.

Save Power, Save the Environment, Save Money

Quicker drying times and a low level energy consumption makes the ideal combination when economy is a factor. The heater can be switched off for even greater economy.

The Wall Blade High Speed Hand Dryer is an automatic machine allowing the user to dry hands without physical contact of components, hence reducing bacteria build up.

Cutting-edge design to reduce energy consumption with infrared motion sensors and automatic shut off to give energy savings when not in use.

Tough ABS cover for superior strength, and does not rust when not in use unlike some steel covers. Ideal for use in campsites, hotels, offices, workplaces, restaurants, pubs, clubs schools and colleges.

Motor Speed: 24,000 RPM - Noise: 60db @ 3 metres - Drying Time: 10 Seconds - Motor Type: High Speed Long Life 550 Watt Brush Motor - Voltage/Frequency: AC220 – 240 V 50Hz - Current: 4.58 Amps (With heater on) - For even greater power savings the heater can be switched off - Power: 1100 Watts (With heater on) - Sizes: 248 x 178 x 250 mm (W x D x H) - Weight: 4.0kg - High strength, rust free ABS cover - Available in a clean white finish

Designed with the environment in mind, this stylish clean design makes this hand dryer a definite alternative to paper towels
